🪪 PROFILE

Web and Mobile App Developer | Entrepreneur

As a proficient web and mobile app developer based in Karachi, I am currently enhancing my skills at Saylani Mass IT Training (S.M.I.T) while pursuing entrepreneurial ventures at IBA. I specialize in building high-performance, responsive, and user-centric web and mobile applications. With a solid foundation in HTML, CSS, JavaScript, React, React Native (Expo), Tailwind CSS, Bootstrap, Sass, Next.js, Node.js (Express.js), Firebase, and MongoDB, I am dedicated to leveraging cutting-edge technologies to create seamless digital experiences. I take pride in my ability to develop scalable solutions, optimize user interfaces, and ensure robust back-end functionality. My entrepreneurial spirit enables me to approach challenges creatively, fostering innovation and delivering impactful results for clients and stakeholders.I am committed to building responsive, user-friendly interfaces and scalable backend solutions, ensuring seamless user experiences across platforms. With hands-on experience in both frontend and backend development, I continuously strive to innovate and stay ahead of the latest industry trends, delivering high-quality, impactful solutions for businesses and users alike.
